## MINIs On the Dragon 2012

### Sunrise Drive - Around and Through the Smoky Mountains

Organizers: *Janet Ford - Phil Grasty - Mike May*

*MANY THANKS to Aaron Granger for his work on this and for sharing !!*

SunRiseDrive-2012-v1

**Date/Time:** Meet 6AM on Thursday May 3rd.

**The Route:** It spans 140 miles and runs from the Fontana General Store, across the Dragon, up the West side of the Smoky Mountains, along the Foothills Parkway (a stop for pictures possible) and stops near Townsend for Breakfast. We then head into Smoky Mountain National Park for a run along Little River Road (One of Reader's Digest top 100 scenic drives in the USA - rivers, waterfalls and wildflowers ) before heading over the Smoky Mountains via 'the Big Hump' (more scenic views and photo ops).

**Duration:** This is a 4 hour drive (no traffic, driving straight through). Given an hour for Breakfast, some scenic photo/stretch stops, I would expect the entire trip to take about 5-6 hours. It may run a bit longer... It may run a bit shorter. You never know!

**Cost:** There is no cost for this event. You must be a registered participant for MOTD 2012 to participate in this drive. We are organizing a group Breakfast, but everyone will be responsible for their own meal.

**Meeting Place:** The drive will begin in front Fontana General Store.

**Radios:** FRS radios are wonderful for this type of event. We will run on Channel 8 (no sub-channel).

**The Drive:** This is a SCENIC drive. Please keep all four wheels on your side of the yellow line. I'll keep the pace brisk, but will happily respond to radio requests to slow down a bit. These directions have been tested several times and nobody (that I know of :P ) has gotten lost, so if you feel that you are driving beyond your limits to keep up with the group, please requests that we slow down a bit or enjoy the rest of the drive at your own, safe pace. The most important thing is the safety of everyone involved.

**Warnings:** Unlike most sharp turn signs (especially in a MINI), the speed warnings for turns in the Smoky Mountain park are very accurate... Take them seriously. Mind your speed on anything that resembles a highway... radar WILL be present. Fines for speeding on the Foothills Parkway are very serious (Federal road), from what I've been told, so we will be taking it easy on that road in particular.

## Liability Waiver & Release Agreement

By participating in the Scenic Drive around the Smoky Mountains at MINIs on the Dragon 2010 (MOTD 2010), I represent that I am at least 18 years of age and have a valid driver's license. I further represent that I have all necessary licenses and insurance to participate in events at MOTD 2010 and that I am not taking any drugs or medication, nor do I have any physical or mental limitations that would interfere with my safe participation in the Tour. I recognize that the operation of any MINI is an inherently dangerous activity with a risk of loss of the MINI and serious injury or death of myself or others. I understand that these risks include, but are not limited to, road surface conditions, debris on roads, varying road widths, curves and other vehicles and pedestrians sharing the roadway, and the skills of other participants in the Road Tour.

In consideration for being permitted to participate in the Sunrise Drive Around the Smoky Mountains at MOTD 2010, in which I will participate on April 29, 2010, I the undersigned on behalf of myself and my heirs, executors, administrators, assigns and legal representatives, agree and indemnify, defend and hold harmless the organizers of the Scenic Drive around the Smoky Mountains at MOTD 2010, the organizers of MOTD 2010 and both of their representatives, individually and in the capacity indicated, from and against any and all damages, claims, suits, causes of action to and against a person and property, (including but not limited to attorney's fees) arising in connection with or related to my participation in this event.

\_\_\_\_\_ (initial here)

Further, I assume all the risk of injury and loss, waive and release any claim of damage and injury of any nature I might state against the organizers of the Scenic Drive around the Smoky Mountains at MOTD 2010 and the organizers of MOTD 2010 and their representatives who assist in the capacity indicated, arising out of my participation in the Tour.

\_\_\_\_\_ (initial here)

I have consulted with the legal and/or other advisors of my choice before signing this unconditional waiver and release, and I enter into freely and on behalf of myself and my heirs, successors and assignees.

\_\_\_\_\_ (initial here)

This Unconditional Waiver and Release shall be constructed under the laws of *the State of Virginia*, and the exclusive venue for the resolution of all disputes pertaining to the road tour shall be in the appropriate municipal, state, or federal court located closest to where the event is taking place.

All persons who might drive during the event must sign and initial this waiver before departure.

## **HOW TO DRIVE THE DRAGON** (Reprinted from an article by Ron Johnson at [www.tailofthedragon.com](http://www.tailofthedragon.com)):

*Drive the Dragon at your skill level* - don't try to push it or keep up with faster vehicles.

**STAY IN YOUR LANE**, There are videos available for sale that show vehicles cutting the corners and taking chances that might appear "fun" while sitting in your easy chair. **BEWARE !** This style of driving on the Dragon can cost you dearly. The challenge of the Dragon is to take the many curves in the best line possible and both lanes **IS NOT** "the line". Drive Florida if you like to straighten out the curves.

Do **NOT** sightsee. The Dragon is to drive, not to watch the sights. On many runs I don't even see what is on the side of the road. I'm watching the roadway way ahead.

Look far ahead at the road, curves, bushes, other vehicles, etc. If you haven't seen the hazards right in front of you, you are going to hit them anyway, so you might as well pay attention to what you have time to avoid.

We have seen deer, bear, turkeys, and wild boar on the roadway. Be ready to brake and slow. When we say brake we **DO NOT** mean slamming on the brakes. That will get you turned around in a hurry and it's no fun looking at where you've been at any speed.

Maintain a "safe zone". Keep a safe distance between you and the vehicle ahead of you. Watch your rear view mirrors for faster vehicles. If you see a faster rider/driver coming up behind you, pull over to the right of your lane, slow down just a little, and wave them around. It is much safer to let a faster vehicle around you than to try to outrun them. **NEVER** stay left trying to keep someone from passing you. **NEVER** pull off the road onto the shoulder unless it is at one of the pull-off parking areas. It may be illegal to pass on the Dragon, but I'll let a faster vehicle get around me to protect my safe zone.

There will always be faster drivers than you. Don't try to be the King of the Dragon.

Drive the Dragon many times before trying to challenge it. Then you still need to respect it at all times.

**DO NOT STAND ON THE BRAKES** if you see danger ahead. You are much better off to tap the brakes and maintain control. Some 90% of the accidents on the Dragon are due to speed and then over-braking. If you see another vehicle coming at you in your lane, hug the white line in your lane. In all likelihood you can avoid trucks and trailers if you stay alert and watch ahead.

**DO NOT** be spooked by other vehicles. **DO NOT** make sudden avoidance moves. You might have to adjust your line to avoid a car, truck, or bike, but **DO NOT** lay on the brakes or turn off the roadway suddenly unless that is the only out you have. Motorcycles might dent your car, but that is better than going off the bank and hitting a tree sideways. If a cycle is in your lane that is their mistake and problem ... don't let them force you into a worse situation for yourself.

Trucks are usually traveling at a very slow speed and you should have time to stop and back-up if you see one coming at you and taking the whole corner. Watch for signals from drivers/riders coming at you. Many times they will escort a big truck over the Dragon and wave a warning to you to pull over. **DO NOT** ignore these warnings.

Avoid driving hard on the Dragon in heavy traffic times. Weekends from 11 am to 5 pm are the busiest. These are the times to lay back and enjoy watching the "show" go by.

The early mornings (before 11 am) and the late afternoons (after 5 pm) have the least traffic.

**ALWAYS** stay 100% alert. You do not have the advantage of relaxing on the Dragon.

Make sure your vehicle is mechanically sound and that your tires are good.

Plan to make several runs, the first is always a nervous one .... then you can have fun on the second and third.

**DO NOT** over-use your brakes. Use your gears and **DOWNSHIFT**. A good Dragon driver **WILL NOT** use a lot of brakes.

Focus - do not daydream. Watch the road, your mirrors, and pay attention to other bikes/cars/trucks.

99% of the accidents on the Dragon come from the following:

- Too much speed
- Too much brakes
- Inattentiveness
- Driving above your abilities
