EVENT COMMUNICATIONS

For general communications between everyone attending, please monitor channel 7 sub-channel 21 on the FRS/GMRS radio. Please use this channel only to get in contact with other members of the group and refrain from playing music or having long conversations on 7-21. Doing so blocks the channel and prevents others from using it. In order to keep 7-21 clear for the group to use, it's best if you move your conversation to another channel instead of staying on 7-21. Below is a list of sub-channels for each local group attending.

Safety on the Dragon!

Written by and used with permission of Ron Johnson from tailofthedragon.com

Drive the Dragon at your skill level - don't try to push it or keep up with faster vehicles.

STAY IN YOUR LANE, cutting the corners and taking chances that might appear "fun" while sitting in your easy chair, BEWARE, this style of driving the Dragon can cost you dearly. The challenge of the Dragon is to take the many curves in the best line possible inside your lane.

Do NOT sightsee. The Dragon is to drive, not to watch sights. On many runs I don't even see what is on the side of the road. I'm watching the roadway way ahead.

Look far ahead at the road, curves, bushes, other vehicles, etc. If you haven't seen the hazards right in front of you, you are going to hit them anyway, so you might as well pay attention to what you have time to avoid.

We have seen deer, bear, turkeys, and wild boar on the roadway. Be ready to brake and slow down. When we say brake we DO NOT mean slamming on the brakes. That will get you turned around in a hurry and it's no fun looking at where you've been at any speed.

Maintain a "safe zone". Keep a safe distance between you and the vehicle ahead of you. Watch your rear view mirrors for faster vehicles. If you see a faster rider/driver coming up behind you, pull over to the right of your lane, slow down a little, and wave them around. It's much safer to let a faster vehicle go around you than to try to outrun them. NEVER stay left trying to keep someone from passing you. NEVER pull off the road onto the shoulder unless it is at one of the pull-off parking areas. It may be illegal to pass on the Dragon, but I'll let a faster vehicle get around me to protect my safe zone.

There will always be faster drivers than you. Don't try to be the King of the Dragon. Drive the Dragon many times before trying to challenge it. Even then you still need to respect it at all times.

DO NOT STAND ON THE BRAKES if you see danger ahead. You are much better off to tap the brakes and maintain control. Some 90% of the accidents on the Dragon are due to speed and then over braking. If you see another vehicle coming at you in your lane, hug the white line in your lane. In all likelihood you can avoid trucks and trailers if you stay alert and watch ahead.

DO NOT be spooked by other vehicles. DO NOT make sudden avoidance moves. You might have to adjust your line to avoid a car, truck, or bike, but DO NOT lay on the brakes or turn off the roadway suddenly unless that is the only out you have. Motorcycles might dent your car, but that is better than going off the bank and hitting a tree sideways. If a cycle is in your lane, that is their mistake and problem, don't let them force you into a worse situation for yourself.

Trucks are usually traveling at a very slow speed and you should have time to stop and back-up if you see one coming at you and taking the whole corner. Watch for signals from drivers/riders coming at you. Many times they will escort a big truck over the Dragon and wave a warning to you to pull over. DO NOT ignore these warnings.

Safety on the Dragon! (continued)

Avoid driving hard on the Dragon in heavy traffic times. Weekends from 11 am to 5 pm are the busiest. These are the times to lay back and enjoy watching the "show" go by. The early mornings (before 11 am) and the late afternoons (after 5 pm) have the least traffic. Always stay 100% alert. You do not have the advantage of relaxing on the Dragon

Make sure your vehicle is mechanically sound and that your tires are good. Plan to make several runs, the first is always a nervous one then you can have fun on the second and third.

DO NOT over-use your brakes. Use your gears and DOWNSHIFT. A good Dragon driver WILL NOT use a lot of brakes.

Focus - do not daydream. Watch the road, your mirrors, and pay attention to other biker/car/trucks. 99% of the accidents on the Dragon come from the following:

Too much speed - Too much brakes - Inattentiveness - Driving above your abilities

Graham County Food Drive - Grace Place

Once again we will be reaching out to help support the local Graham County Food Pantry and give back to the local folks in the area. We have several incentives to get everyone involved:

History of MINIs on the Dragon

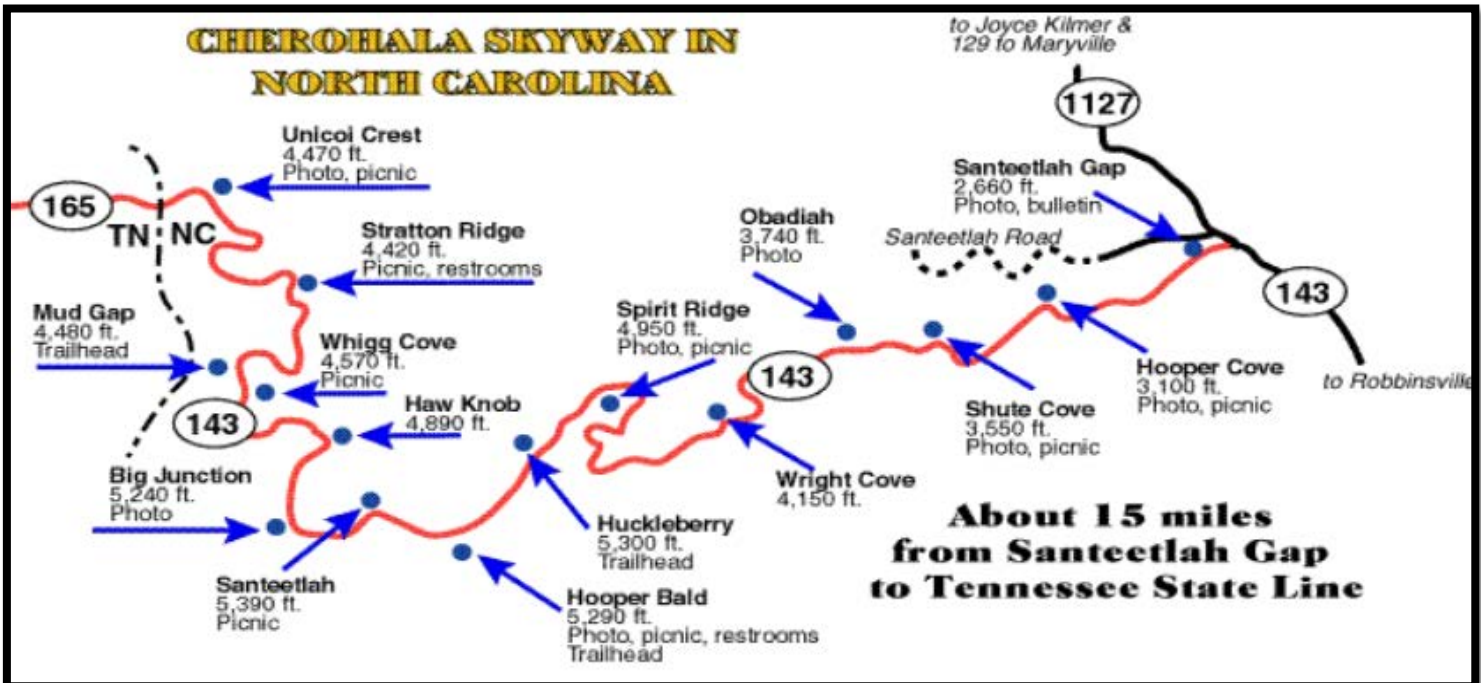

In May of 2003, the first group of Miniacs went to conquer the Dragon. Sixty cars in number and strong in spirit the first Dragon slayers were excited to come back and tell the rest of the world of their adventure. It was this group who ordained that the first weekend in May, they would return, bringing as many MINI friends as possible. Each year since, the daily events and host have changed, but the essence of the event remains. MINIs, Twisties and Friends sharing the common bond of a fun car and a great road.

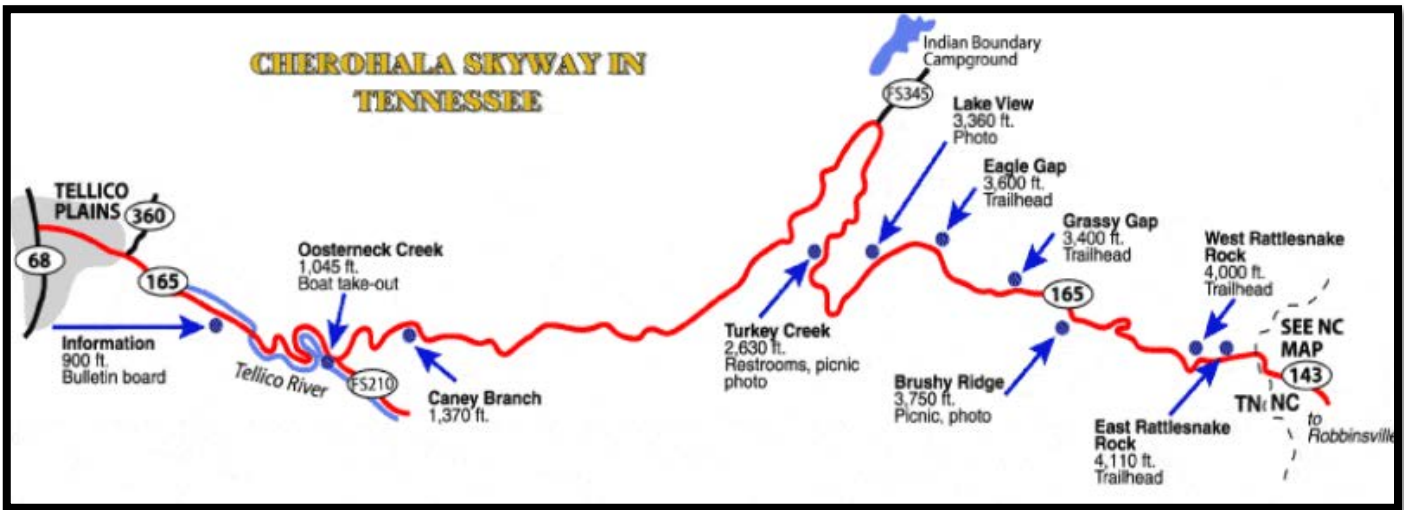

FONTANA VILLAGE RESORT

Fontana Village is exactly that: a village. It was originally built to house the workers building the nearby Fontana Dam in 1942. This small town contained everything needed to support the workers building the tallest dam on the East Coast: a general store, school, post office, hospital, church, even a police and fire department. As you travel around the resort you can see these buildings, some of which are still in use today. The dam was completed in 1945, and in 1947 the village was turned into the largest resort in the Smoky Mountains.

THE CHEROHALA SKYWAY

One of the region's more popular roads. Built along portions of a former Cherokee Indian trading route, this 40 mile road took over 30 years to build and cost \$100 million. Scenery along this route rivals the Blue Ridge Parkway and includes elevations up to 5,390 ft. Drive time can range from 90 minutes to 2 hours depending on the number of stops you make.

Highlands and Waterfalls

Bridal Veil Falls - 2.5 mi. east of Highlands on U.S. 64. Visible from the highway, which at one time routed traffic under the falls. Height 120 ft.

Cullasaja Falls - Visible from U.S. 64, in Cullasaja Gorge, 11 mi. east from Franklin, 9 mi. west from Highlands. Height 250 ft. Accessible by foot trail, a half-mile through steep, rough terrain.

Dry Falls - Located near U.S. 64, 3.5 mi. west from Highlands, 16.5 mi. east from Franklin. Paved walkway leads to falls from parking area. Walk underneath the 75 ft. falls.

Glen Falls - From Highlands, travel 3 mi. south on NC 106. Turn left on U.S. Forest Service Rd. with "Glen Falls" marker. One-mile trail to falls is steep and rough. Consists of three large falls, each dropping approx. 60 feet.

Whitewater Falls - At 411 ft., the highest falls in Eastern America. From Cashiers, take U.S. 64 east, 10 mi. to "Whitewater Road." Falls are located 10 mi. south on Whitewater Rd., near the NC-SC state line.
